

Birch River Kennels Health Guarantee

We, Birch River Kennels GUARANTEE all of our puppies against inherited congenital defects, such as hip and elbow dysplasia, for a period of 26 months from the date of birth. In the event there is a problem, the problem must be confirmed in writing by a certified veterinarian and deemed incurable. In this event the buyer will be given a replacement puppy of equal value as soon as one becomes available or a refund of half the purchase price. All vet bills will be assumed by the buyer. The seller also reserves the right to get a veterinarian diagnosis, at the seller's expense, if the seller feels it may be necessary. This guarantee is void in the case that a female has been bred before the end of this guarantee. All veterinarian records must be made available to the seller upon request, if a problem does occur. If proper care cannot be proven through the veterinarian records, the contract may be voided.

Hadashville, MB

*Please remember if something happens and you can no longer care for the pup/dog, our doors are always open!
Rather than selling your pup/dog to NEW owners please consider us first!
